5 Principles for an integrated food system

1. Health Access & Equity:

Nutritious, safe and personally acceptable food is accessible to all people in a dignified manner.

2. Environmental Responsibility:

The environment is protected from adverse impacts of the food system while community self-reliance is promoted.

3. Government Leadership & Collaboration:

Regional, provincial and national governments collaborate to improve community food security.

4. Economic Vitality:

Local food enterprises strengthen the local economy and enhance every step of the food system.

5. Food Culture & Education:

Our community becomes proficient in food literacy and celebrates all food cultures.
